MAG's Vision is a world in which everyone can live free from the enduring and devastating consequences of armed violence, conflict and their legacy. People will live in communities where their rights are upheld, with dignity and choice and free from fear from mines, explosive remnants of war (ERW) and the impact of small arms and light weapons and ammunition.

MAG's Mission is to save lives, ease suffering and enable sustainable development by limiting the causes and addressing the consequences of armed violence and conflict so people can live with dignity and choice, free from fear. We will use our core skills and distinctive competence to save lives through the removal of mines and ERW, and reduce the impact of small arms, light weapons and ammunition on people and communities. How we do this is as important as what we do – we work primarily with and for communities, for us 'it's all about people'.

MAG's Values: Our values come to life through our actions, every day. How we act has an impact on others. As someone who works at MAG, you can help to create a positive culture by demonstrating our values through your own behaviour and actions. Everyone has a role to play in shaping our culture. Everyone should understand our values and is encouraged to think how they are relevant to their individual role.

DETERMINED - we work with purpose.
